

Shared Education

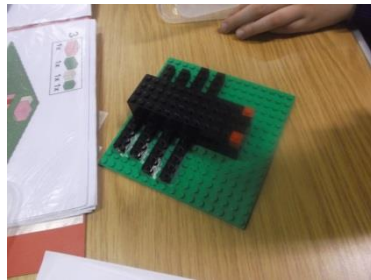

Omagh County Primary School and Holy Family Primary School have a long standing relationship within the Omagh community through projects, such as EMU, CRED and PACTIV. In 2015-16 we began our new four year joint Shared Education Signature Project (SESP). Children from Omagh County Primary School and Holy Family Primary School will be working together in partnership through the Shared Education Project.

Staff work together to plan, team-teach and evaluate learning across the curriculum to enhance coverage for every child in both schools, particularly the areas of PDMU, STEM/The World Around Us, ICT and Numeracy.

The aims of Shared Education are to develop friendships and promote learning through shared educational activities. The children will also be exploring personal attributes, similarities and differences as part of the Northern Ireland Curriculum. This project will also allow the staff from both schools to share good practice and expertise and to plan and deliver lessons together.

Have a look at some of the activities Year 4 and Year 5 have been doing through Shared Education....

Year 4 had great fun this year. They made their own Lego® models with Bricks for Kids; personalised kites and took part in the Big Bird Watch.

Year 5 have learned about robotics and creating digital animation productions. Our friends from CBS helped Year 5 to design and build their own boats.

Through the Shared Education project we have been able to provide all Year 3 to Year 7 pupils in Omagh County Primary School and Holy Family Primary School with access to the Mathletics learning resource. Mathletics is a multi-award winning, online learning resource that encourages students and rewards results in mathematics.

There are lots of fun learning activities planned for next year and the program will be extended to include Year 6 pupils in Omagh County Primary School and Holy Family Primary School.
